REMARKS

This is in response to the Advisory Action of June 30, 2003.

With this Amendment, claim 1 is amended. In the previous response, the inclusion of elements from claim 17 into claim 1 was inadvertently not performed. The intent to provide this amendment is set forth in the remarks in the prior response.

It is believed that the amended independent claim 1 is now in condition for allowance over the references cited in the prior Office Action.

The Director is authorized to charge any fee deficiency required by this paper or credit any overpayment to Deposit Account No. 23-1123.

Respectfully submitted,

WESTMAN, CHAMPLIN & KELLY, P.A.

MARKED-UP VERSION OF REPLACEMENT CLAIMS

1. (Thrice Amended) A vacuum cleaner comprising:
 - a suction assembly;
 - a dust collecting chamber collecting air and dust through an air path, wherein the air path connects the suction assembly to a connecting pipe by a negative pressure;
 - a driving portion generating the negative pressure and activated by manipulating a driving switch disposed on a handle portion;
 - a floor cloth rotatably driven in the suction assembly to clean a cleaning surface, the floor cloth arranged in a plane;
 - a rotary member rotatably disposed on a lower end of the suction assembly, for supporting the floor cloth, wherein the floor cloth rotates in a plane substantially parallel to the cleaning surface and the plane of the floor cloth;
 - rotary driving means controlled by the manipulation of the driving switch, for supplying a driving force to rotate the rotary member;—and
 - power supplying means for supplying an electric signal ~~from~~generated by the manipulation of the driving switch to the rotary driving means; and
 - removable means for removably supporting the floor cloth onto the rotary members.
